Description;

Turkey's Mega Project!

Not only is a new Antalya being built in Antalya. Realizing Turkey's largest urban transformation project on an area of 1.300.000 m², the construction company offers all the beauties of Antalya with a unique and great idea.

A New City Is Being Established in Antalya!

There are many features that distinguish this city from all other cities. Structures such as health and education institutions, shopping mall, commercial shops, giant city park, hospitals, museums and technoparks in the city are being built for you to be close to everything. In short, everything that should be in a city will be available in this project.

How will a new city be established in Antalya?

The construction company builds 19,000 residences, shops, home offices and other units on an area of 1,300,000 m², creating a living space for 70,000 people in total. A uniquely beautiful modern city is being built with a huge city park and green areas planned for you to breathe plenty of oxygen-rich air on an area of 157 thousand m². In this city, all details are created with great devotion and meticulousness without harming anything.

Investment Value!

When establishing a new city in Antalya, not only does life add value. A heritage city is being built for the future. With an investment value of 8 billion TL, the project makes Antalya an important life and investment city in the future as it is today. In this city, both those who invest and those who live earn.
